

Cambridgeshire County Council

The Active Travel Hierarchy

Looks to introduce a way of prioritising maintenance activities to better reflect the use of the highway network by walkers, cyclists and other non-motorised traffic.

This will support the Council's Active Travel Strategy and its ambition to make walking or cycling the natural choice for shorter journeys, in turn helping to reduce road traffic congestion, improve journey times, and contributing to carbon reduction in the County. CCC would like to invite your feedback on the proposals, so that we can better understand which active travel routes and public rights of way are considered important by our communities, and what maintenance activities stakeholders might like us to prioritise. Launched by the Highways & Transport service at Cambridgeshire County Council. This follows proposals for a consultation which were presented to the Council's Highways & Transport Committee in January 2024. The consultation seeks input regarding proposals for an 'Active Travel Hierarchy'.

This is a public consultation that is being promoted on the County Council's social media channels to encourage wide participating, that they may gauge residents' views.

The consultation is ~~open for responses until Monday 16th September.~~
Extended to 30 September 2024
